

This is a digital copy of a book that was preserved for generations on library shelves before it was carefully scanned by Google as part of a project to make the world's books discoverable online.

It has survived long enough for the copyright to expire and the book to enter the public domain. A public domain book is one that was never subject to copyright or whose legal copyright term has expired. Whether a book is in the public domain may vary country to country. Public domain books are our gateways to the past, representing a wealth of history, culture and knowledge that's often difficult to discover.

Marks, notations and other marginalia present in the original volume will appear in this file - a reminder of this book's long journey from the publisher to a library and finally to you.

Usage guidelines

Google is proud to partner with libraries to digitize public domain materials and make them widely accessible. Public domain books belong to the public and we are merely their custodians. Nevertheless, this work is expensive, so in order to keep providing this resource, we have taken steps to prevent abuse by commercial parties, including placing technical restrictions on automated querying.

We also ask that you:

- + *Make non-commercial use of the files* We designed Google Book Search for use by individuals, and we request that you use these files for personal, non-commercial purposes.
- + *Refrain from automated querying* Do not send automated queries of any sort to Google's system: If you are conducting research on machine translation, optical character recognition or other areas where access to a large amount of text is helpful, please contact us. We encourage the use of public domain materials for these purposes and may be able to help.
- + *Maintain attribution* The Google "watermark" you see on each file is essential for informing people about this project and helping them find additional materials through Google Book Search. Please do not remove it.
- + *Keep it legal* Whatever your use, remember that you are responsible for ensuring that what you are doing is legal. Do not assume that just because we believe a book is in the public domain for users in the United States, that the work is also in the public domain for users in other countries. Whether a book is still in copyright varies from country to country, and we can't offer guidance on whether any specific use of any specific book is allowed. Please do not assume that a book's appearance in Google Book Search means it can be used in any manner anywhere in the world. Copyright infringement liability can be quite severe.

About Google Book Search

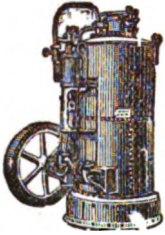

Google's mission is to organize the world's information and to make it universally accessible and useful. Google Book Search helps readers discover the world's books while helping authors and publishers reach new audiences. You can search through the full text of this book on the web at <http://books.google.com/>

NOTICE.

Purchasers of these Codes will greatly oblige by recommending them to their friends at home and abroad.

Foreign orders accompanied by a remittance will be instantly attended to.

TELEGRAPH CODES FOR GENERAL BUSINESS.

The "**Globe Commercial Telegraph Code**," the finest Code ever published, provides, besides over 10,000 well arranged phrases, a system by which business may be simultaneously transacted in no less than 60 various articles of commerce—each having a range of 30 qualities, 30 quantities, and 60 prices—*facilities probably beyond the requirements of the largest commercial house in the world*. Quotations of two different articles in one word. This Code is also well suited to Manufacturers.

The "**International Mercantile Telegraph Code**" contains nearly 20,000 well selected phrases suitable to all business transactions. Ciphers not exceeding 10 letters. This Code has met with remarkable favour, and has run through nearly twelve large editions. Price 25s. per copy.

The "**Commercial Telegraph Code**," a reprint of the "International," with further improvements in the ciphers. 25s. per copy.

The "**General Telegraph Code**," with ciphers not exceeding 15 letters. Especially adapted for use with the Continent. 21s. per copy.

All the above published by HAMILTON, ADAMS, AND CO., 32, Paternoster Row, London, E.C.

TELEGRAPH CODES FOR THE COTTON TRADE.

The "**Cotton Telegraph Code**," 33rd edition, compiled solely for the American Cotton Trade, in which it is now the standard Code, being therein solely and universally adopted. £2 2s. per copy, or three copies £5 5s.

The 34th edition is the same as above, except that the qualities are left blank for adapting it to the Indian, Brazilian, and Egyptian Cotton Trades. £2 2s. per copy, or three copies £6 5s.

The "**Liverpool Cotton Telegraph Code**," edition A, contains 80,000 ciphers arranged in tables, by means of which all transactions in Cotton can be transmitted by means of **one word!** *Two complete firm offers or orders to buy or sell Cotton can be transmitted, giving price, quantity, quality, and terms, in one word!*

This Code is for use either alone or with the "Cotton Telegraph Code," 33rd edition, the ciphers being carefully selected not to clash.

This book being bound with a cut index, any table can be found instantly. Price £5 5s. per copy.

Edition B contains 700 tables, with "32nds" and "64ths," and the headings left blank. Price £5 5s. per copy.

The "**Appendix Telegraph Code**" contains 6,000 German ciphers, selected not to clash with any of the above works, arranged in convenient tables and *numbered consecutively*. Price 25s.

A reduction in price will be made when more than 12 copies are taken at one time.

All the London and Provincial papers speak in the highest possible terms of these Codes, and especially in their careful classification and the judicious selection of the phrases and ciphers is their superiority over other similar works apparent.

PREFACE AND EXPLANATION.

The growing requirements of Commercial Firms trading in Cotton necessitating some further facilities for transmitting orders and firm offers to and from the United States in the most economical manner possible, the Compiler of the "Cotton Telegraph Code, 33rd edition," begs to offer to his numerous friends and clients a new Code, entitled. "The Liverpool Cotton Telegraph Code."

Cotton men are now so familiar with the working of the "Cotton Telegraph Code," that it was not deemed advisable to interfere in any way with that book, but to compile a Code, which, while giving greater facilities for business telegrams, would be available for telegraphing in combination with it.

The "Liverpool Cotton Telegraph Code" contains ciphers chosen from the French, Latin, Dutch, Spanish, Italian and Portuguese languages, whereas the "Cotton Telegraph Code, 33rd edition," is composed entirely of English ciphers—the two may thus be used simultaneously without fear of errors, and combined give the Cotton operator over 80,000 phrases—facilities never before attempted or supplied for any trade whatever.

Throughout the new Code, the plan has been adopted of omitting the pence and telegraphing the fractions only, it being assumed, that it would be impossible to make a mistake to the extent of a penny per lb. in these days, when the markets on both sides of the Atlantic remain on so close a parity and move together so sympathetically.

No trouble or expense has been spared to render the "Liverpool Cotton Telegraph Code" fully equal to all present requirements; and care has been taken at the same time to provide, where possible, for changes in the Cotton business of the future, so far as it is possible to foresee them at the present time.

The whole book is compiled on a strictly methodical and simple plan, of which the following is a rough outline :—

In the first place, it should be remembered that in every case the **“quality” commences with the highest grades.** And where terms of shipment are referred to, “by sail” is on the left-hand page, and “by steam” on the right.

The book is divided into four parts—

Part I., from pages 1 to 143, deals of **Purchases and the Advice of Purchases.**

Part II. treats of **Sales and Advice of Sales**—see pages 144 to 247.

Part III., pages 248 to 349, treats of **Firm Offers.**

Part IV., pages 350 to end of book, treats of miscellaneous subjects necessary to complete the book, such as **Prices, Qualities, Market Reports,** etc.

Each of the first three Parts is again sub-divided as follows :—Take, for instance, Part I. ; pages 1 to 27 deal simply with **Orders and Advice of Purchases in sixty-fourths.**

Pages 28 to 43 contain **Cost and Freight** Tables for Orders and Advice of Purchases.

Pages 44 to 61 contain **Cost, Freight, Insurance, and 6 per cent. loss in Weight** Tables.

Pages 62 to 85 contain **“Duplicate Order”** Tables.

Pages 86 to 91 contain **“Advice of Execution of Duplicate Orders.”**

Pages 92 to 115, **Orders for Buying “Futures”** in sixty-fourths.

Pages 116 to 139, **Advice of “Future” Purchases.**

Precisely the same arrangement obtains with the Selling Tables (Part II.).

Firm Offers (Part III.) commence with asking for and giving Firm Offers to various Ports, and after that exactly the same arrangement is pursued as with Part I.

Wherever “Duplicate” Offer or Order Tables are inserted, the terms have been left open for the purchaser to add to suit his own special business, as it would have made the Code far too bulky to give these very voluminous tables with all the different terms attached.

In order to keep the book in reasonable compass, Tables with only two sets of terms have been inserted, which can easily be altered in manuscript if not suitable.

The very slightest familiarity with this Code is needed to give the operator the full utility to be derived from it, and the Cut Index will greatly assist him in finding the required table.

For those whom this edition "A" should not quite suit, a special blank edition has been published, called the "B" edition; in this the headings are omitted from the tables and only the 64ths and 32nds inserted, thus offering 700 blank tables which may readily and with very slight trouble be adapted to any special requirements, such for instance as the Indian, Brazilian, and Egyptian Cotton trades.

The last column in pages 28 to 61 has been left blank, and if not utilized in any other way might be used for quoting, thus the cipher "bellator" would be read to mean "we quote Middling by steam, cost, freight, insurance and 6 per cent. loss in weight, at 3/32nds."

No alteration in the "Liverpool Cotton Telegraph Code" will be made, unless changes in the mode of transacting Cotton business render it necessary to remodel and republish it. Purchasers can therefore always rely upon obtaining copies of it at any time.

Purchasers will greatly oblige by recommending these Codes to their friends and correspondents abroad and at home.

The Author is not responsible for any consequences arising from insufficient explanations, similarity of ciphers or any error of whatever kind in his books; the greatest care has been taken to render them correct.

QUEEN INSURANCE COMPANY,

CHIEF OFFICES—
QUEEN INSURANCE BUILDINGS, LIVERPOOL,
AND
60, GRACECHURCH STREET, LONDON.
TWENTY-FOURTH ANNUAL REPORT.

The Report and Accounts for the year 1881, presented to the Shareholders, at the ANNUAL MEETING, on *Thursday, 25th May, 1882*, shewed in the

FIRE BRANCH,

That the premiums for 1881, after deducting Re-insurances, amounted to £289,137, and the Losses to £473,342.

IN THE LIFE BRANCH,

That new policies had been issued for £236,706, and that the Life Fund, by the addition (£45,956) made to it in the year, now represents 71.3 per cent. of the entire net premiums received on every policy in force.

The addition made to the Fund is the largest in the history of the Company.

The amount standing to the Credit of Profit and Loss Account was appropriated to payment of a Dividend at the rate of 10 per cent. per annum.

THE FUNDS

Were shewn hereafter to stand as follows:—

CAPITAL PAID-UP	£180,035.
RESERVES	2348,736.
LIFE ACCUMULATION FUND	2395,352.
ANNUITY FUND	213,111.
TOTAL FUNDS IN HAND	£1,056,590

The Auditors' Report, dated 19th May, 1882, stated—"We have examined the Books of the Queen Insurance Company, with the Vouchers and Securities, including the Certificates sent home from the American and Australian Branches for their investments. We have also examined the Audited Balance Sheets of the Foreign Branches, and we certify that the combined Balance Sheet exhibits a full and accurate view of the Company's position on the 31st December, 1881, as shown by the Books."

"The present aggregate market value of the Securities is largely in excess of the cost appearing in the Balance Sheet."

HARMOOD BANNER & SON, Chartered Accountants.

The Income of the Company is now £725,406.
The Company has paid in satisfaction of Claims £2,973,547.

J. MONCRIEFF WILSON, General Manager.
T. WALTON THOMSON, Sub-Manager.
J. K. RUMFORD, Secretary in London.
